Kannur, Kerala,India

[LinkedIn Profile](#)

[GitHub Profile](#)

Full Stack MERN Developer with hands-on experience building scalable web applications including an e-commerce platform and a real-time skill-exchange system with authentication, scheduling, chat workflows, and admin analytics dashboards. Skilled in React.js, Node.js, Express.js, MongoDB, REST API architecture, and secure authentication systems. Experienced in integrating payment gateways and deploying web applications using modern hosting environments. Seeking junior developer opportunities in collaborative Agile teams.

Projects

SkillSwap – Skill Exchange Platform (MERN) Designed and developed a scalable full-stack skill-exchange platform supporting matchmaking, scheduling, communication workflows, and gamified engagement.

Key Contributions:

- Implemented JWT authentication and secure route protection
- Built recommendation-based skill matching system
- Integrated real-time chat and notification workflows
- Designed session scheduling with reminders and tracking
- Implemented gamification features (points, badges, leaderboard)
- Developed admin analytics dashboard for monitoring platform activity
- Created modular REST API architecture for scalability
- Tech Stack: MongoDB, Express.js, React.js, Node.js, REST APIs, JWT

Flora Gems – E-Commerce Website (MERN) Developed a production-style jewelry e-commerce platform supporting secure transactions and admin-level inventory control.

Key Contributions:

- Implemented cart and coupon management logic
- Integrated Razorpay payment gateway
- Built wallet refund workflow
- Developed admin dashboard for product and order management
- Designed backend REST APIs for order lifecycle handling

Tech Stack: MERN Stack, Razorpay API

User Authentication System Developed secure authentication workflow supporting role-based access control and protected application routing.

Key Contributions:

- Implemented signup/login with bcrypt encryption
- Designed admin approval workflow
- Protected APIs using JWT middleware
- Secured session access across application routes

Tech Stack: Node.js, Express.js, MongoDB, JWT

Education

Bachelor of Commerce (BCOM)

Indira Gandhi National Open University
2026 - Currently Pursuing

Full Stack Development (MERN Program)

Brototype
- 2026

Higher Secondary (Plus Two)

GHSS Munderi
-

SSLC (10th Grade)

GHSS Munderi
-

Skills

Frontend:HTML5, CSS3, JavaScript (ES6+), Bootstrap, jQuery, React.js (Hooks, Router, Context API), Responsive Design, SweetAlert2, Backend:Node.js, Express.js, RESTful API, Razorpay Integration, Middleware • Database: MongoDB, Mongoose, Database::MongoDB, Mongoose, SQL- (MySQL), Tools & Others:Git, GitHub, Postman, bcrypt, crypto, Nodemailer, PM2, Nginx (basic), MVC Pattern,, Deployment:Render / Vercel / AWS / Ng inx reverse proxy
